

grandMA ultra-light

- Real-time control for up to 64 DMX universes/16,384 parameters (Expansion Mode)
- Extensive networking functionality incl. multi-user, backup, parameter expansion, etc.
- 2,048 HTP-/LTP-parameters in stand-alone mode
- Full network performance
- 1 internal, high-resolution TFT-colour touchscreen
- 1 external SVGA connector
- 10 faders, 30+20 executor buttons (on 128 pages)

The grandMA ultra-light comes with one colour touchscreen display, one external display, ten manual faders, 30+20 physical playback buttons (on 128 pages).

Furthermore the grandMA ultra-light offers 2,048 DMX parameters, free visualisation software, support for up to six remotes including DMX universe expansion with up to 16,384 parameters (32,768 DMX channels or 64 DMX universes) via MA NSP (Network Signal Processor). The grandMA ultra-light brings all the user programmability of a top of the line console to some of the smallest shows. High-end features such as multi-user programming and backup ability are also included with the grandMA ultra-light, making it the perfect console for professional programmers working on smaller or budget constrained productions or a smaller console as part of a larger system.
